Hongsong, March 31st, 1890.

WITHIN a few hours after these lines appear in print the Colony of Hongkong will have the pleasure of welcoming to its shores Their Royal Highnesses the Duke and Duchess of CONNAUGHT. This is the third time in its history that the Colony has been honoured with the presence of representatives of the Royal Family. The first occasion was in 1869, when the Duke of EDINBURGH arrived in H.M.S. Galatez and spent a fortnight amongst us, during which time he received all the honour and entertainment the Colony had it in its power to offer. The visit was marked by the opening of the City Hall, and event of some importance in our local, history, and by an act of royal courtesy which made a deep impresson at the time and the the 4th prox. memory of which will not soon be forgotten We refer to the Duke, dressed in gurnsey and duck trousers and with only his cap- appointed Acting Superintendent of the Fire tain's cap to distinguish thim from an ordinary tar, taking stroke oan in his own barge, to convey Admiral Sir HARRY KEPPEL off to the mail steamer by which that gallant officer signally and on probation, Mr. J. W. Kinghorn left for home. The second occasion on to be Assistant Superintendent and Engineer of which the Colony was risited by members of the Royal Family was in December, 1881, when the Princes ALBERT VICTOR and favourable to allow work to proceed at the Gap GEORGE of Wales arrived with the detached squadron and spent Christmas in Hongkong. blasting operations are nearly completed. Their visit, although intended to be entirely unofficial, was marked by various festivities. and the town was illuminated in their honour appointed Acting Police Magistrate and Magion one of the evenings. Now for the third time the Colony is privileged to welcome members of the Royal Family, in the persons of the Duke and Duchess of CONNAUGHT, by H. R. H. the Duke of Connaught at the layand the occasion is again being availed of for a display of loyalty and attachment to Hing's to-morrow (Tuesday). The implements the Throne—a sentiment which animates not only Her Majesty's subjects of British birth, but also the native community. The sentiment may differ somewhat in quality and kind in the two, the Chinese not being influenced like the British by the ties of nationality and personal affection to the Royal Family, but they are very sensible of the benef they have enjoyed under the beneficent rule of Her Most Gracious Majesty Queen VICTORIA, and the expression of their metal the build readway. Seeing that we in

has been in regard to the reception of Their Royal Highnestes, but only as to details of the pageantry, part of which it was thought by some might have been omitted without in any way detracting from the heartiness of the welcome. It would be unscomly at present to further pursue that question. but we may be allowed the satisfaction of stating that the Chinese Guilds, with that generosity which they are always ready to exercise when a matter is placed fairly bedefraying from their own proper funds, the expenses they are incurring in connection; with the Royal visit instead of raising the

sum by the means at first intended. jesty the Queen; was born on the 1st take delivery of it and tranship it up the river. May, 1850, and was married on 13th March, 1879, to Princess MARGARET LOUISE, of Prussia, third daughter of Prince FREDERICK CHARLES. His Royal Highness was trained for a military career and attained the rank of Major-General in 1880. In the expedition to Egypt in 1882 he commanded the Guards Brigade in the First Division. In December, 1889, he was appointed to the command of the Bombay army, and his promotion to his present rank of Lioutenant-General is: dated the 1st April last year. In India both the Duke and Duchess have been extremely popular. In a farewell article the Times professional career, said :- "There only now rooms. The flames were at once extinguished remains the pleasant duty of recording the but there was a slight panic amongst the audigenial manner in which His Royal Highness and that amiable lady the Duchess of Cow-

The point was raised whether this to use their arms. Let us now suppose that better simed than formerly. The increased the Author was Resident Engineer, and pre- would not be unfair to salling ships and junks, conscription had existed in England for a con- deadly effect of the repeating rifls and smokeless pared the designs for the conduit, filter-beds, but after some argument it was felt that the siderable period. Under those circumstances, a powder on an enemy repulsed after an unsuccessand service reservoir, and all the working draw- number was so small that it was underirable to huge gathering similar to that exhibited, for in- ful storm, will tend to annihilation, and probably

contained serious elements of disorder and dan ger had the men not been pescefully disposed. Had England been a conscriptional country, ninetenths of the men on strike would have previously undergone military training. Had themen shown an aggressive spirit, the ringleaders, as they are termed in a civil mob, would have suddealy become transformed into captains and generals. The latter would only have had to issue their orders to be immediately obeyed. Pillage, massacre, might have ensued; arms would have been obtained; and what, happily, in the case mentioned proved a mere harmless ng the body rigidly in its position. His head display, might, under different or cumstances, then placed in a kind of care formed by a have been converted into a serious riot. Francisco thermore, a conscriptional army might masib have fraternised with the moh, as did the Nav tional Guard in 1789, the National Guard being virtually the people. In the present instance, and under our actual military, had at been December to confront the mob with the tenopa, the former would have been opposed by a body of men who, being as they are, a section of the opulation professionally separated from thebulk, and totally unsympathetic with the discontented and agitating part of the nation, would not be liable to be affected by the ideas

'A fifth argument that may be adduced against

the introduction of conscription into England is

It may be emphatically stated that the conscrip-

tional system, carried to excess, as it is most un-

by no means weaker than those already advanced.

doubtedly at this moment in Germany, Italy. and France, especially in the latter country, is not so much a sign of strength as a proof of deliberately bending down and taking a weakness. The ruinous effects of conscription upon the business capacities of a country have already been often described, and need not here be repeated. Suffice it to say that a huge conscriptional army represents a prodigious amount of approductive labour. The same may be said of the cannon foundries and manufactories of all other warlike weapons and explosives. In France, the richest country of the Continent, every kind of musical instrument to add to the the conscripts are unable to live upon their daily tumult. The head, after being severed, is jerked rations, and their food supply is applemented ing that it is proved in the proceedings by the up in the air by the released tonsion of the pole, by donations in money or provisions from their petition of the pretended agent of the Bank and Then provide the blood their vilest families. There are few French soldiers whose and most juhuman passions are aroused. They parents, however poor their circumstances. neglect to send a donation, in some form or anact like wild beasts, clutch at the head smear other, to the representative of the family and each other in the face with the blood, and a service. This relief, which in many cases general scrimmage always ensues, resulting more amounts to a self-sacrifico-a tax-is regarded by the donors in the light of a moral and religious duty. In Italy, a very poor country, whove the soldier is not so well cared for even as in France, the generality of families are not in a position to support the additional strain that would be In the February number of the Antiquery an imposed by this act of abnegation.
